— John T, tmstr Langton L & C Co, bds 137 N 4th West.

Tmstr = teamster

*From colonial times to the turn of the last century, the men who drove horse-drawn wagons formed the backbone of North America's wealth and prosperity. Despite their essential role as guardians of trade -- the lifeblood of the economy -- they remained unorganized and exploited.*

*In a teamster's life, work was scarce, jobs were insecure, and poverty was commonplace. In 1900, the typical teamster worked 12-18 hours a day, seven days a week for an average wage of \$2 per day. A teamster was expected not only to haul his load, but to also assume liability for bad accounts and for lost or damaged merchandise. The work left teamsters assuming all of the risks with little chance for reward.*

**Address 28 E. Fourth South St., Salt Lake City, Utah.**

*Striking streetcar workers stopping a streetcar on Main Street, April 29, 1907. The conservative Deseret News called the strikers "hoodlums" and "hooligans" in reporting assaults on several streetcars that day. "As the car approached the mob hooted and yelled, shouting 'Scab! Scab!' 'Down with him. Give it to him, boys.' And the shower of rotten eggs began." Late that night, through the mediation of LDS church leader B. H. Roberts, management and the union reached an agreement and the strike ended.*

**HAIR'S BREADTH**  
 between engine parts

blockades mere "free-flow" oiling. Can't blockade

**WINTER OIL-PLATING**

Barely room for a whisker between engine parts, even in old cars.

Suppose other oils dared to claim they flow as fast as your correct Winter grade of Conoco Germ Processed oil. That still could never change the fact that this patented oil has gone into all the million narrow places that need it, before other oils budge an inch.

Only one thing can give you all that difference... exclusive OIL-PLATING.

OIL-PLATING is a lining of slippery rich lubricant, sort of welded all over your engine's insides by Germ Process action.

OIL-PLATING cannot drain down all day, all night, all Winter. Keeps your engine constantly oiled in advance—while you're still at your desk... or at breakfast.

No faint chance of an instant's poor oiling. Not half a turn of the starter wasted. And you don't often "add a quart," for OIL-PLATING neither drains right down nor burns right up. The most noticeable Winter change you ever ordered...Germ Processed oil from your Conoco Mileage Merchant. Continental Oil Co.

**Through Passenger Service**  
**Designed to Meet INDUSTRY'S NEEDS**

Here is a new passenger train service ideal for industrial executives making business trips between the East and West Coasts. This no-extra-fare service is 10 to 18 hours faster than previous service between Chicago-St. Louis and the West Coast terminals.

**Between**  
**NEW YORK-WASHINGTON, D. C.  
and LOS ANGELES-SAN FRANCISCO**

From New York . . . through sleeping cars departing from the Pennsy and the Pennsylvania railroads. On arrival at Chicago they are carried through to Los Angeles via San Francisco to San Francisco on the Overland.

From Washington, D. C. . . through sleeping cars departing on the Pennsylvania are carried through to Los Angeles via San Francisco to San Francisco on the Overland.

Similar service available eastbound from Los Angeles and San Francisco. No change of cars enroute in either direction.

Departing from St. Louis on the new streamlined CITY OF ST. LOUIS™ through sleeping-cars are rented in Portland, San Francisco and Los Angeles (via Santa Fe). Available in Los Angeles at rates equivalent to those in Chicago.

For complete information regarding schedules, accommodations and other passenger service or to book the Union Pacific, inquire of your local ticket office.

**FOR VACATIONISTS . . .** Union Pacific serves more winter sports regions than any other railroad. It connects with the Union Pacific, Denver, Colorado, Milwaukee and the Western Pacific divisions of the Union Pacific.
